2. BASIS OF PRESENTATION

These condensed consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34, *Interim Financial Reporting*. Certain information and note disclosures normally included in the audited annual consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed. As a result, these condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2011 ("Annual Financial Statements").

These condensed consolidated financial statements were prepared using the same accounting policies as set out in the Company's Annual Financial Statements, with the exception of the changes in accounting policies described in Note 3 below. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed consolidated financial statements are disclosed in Note 3 of the Company's Annual Financial Statements.

3. CHANGES IN ACCOUNTING POLICIES

Effective January 1, 2012, the Company adopted the following revised IFRSs issued by the IASB. These revised IFRSs did not have a material impact on the Company's condensed consolidated financial statements.

- *IAS 12, Income Taxes* – amended to provide a practical solution to determining the recovery of investment properties as it relates to accounting for deferred taxes.

- *IFRS 7, Financial Instruments: Disclosures* – amended to increase the disclosure requirements in connection with the transfer of financial assets to a third party that are not derecognised from the Company's condensed consolidated financial statements.

Recent accounting pronouncements
The IASB issued the following new and revised accounting pronouncements, which are not expected to have a material impact on the Company's condensed consolidated financial statements:

- *IAS 19, Employee Benefits (2011)* – amended to change the accounting for defined benefit plans and terminations benefits, and improve the understandability and usefulness of disclosures. Effective for annual periods beginning on or after January 1, 2013.

- *IFRS 13, Fair Value Measurement* – provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. Effective for annual periods beginning on or after January 1, 2013.

- *IFRS 9, Financial Instruments* ("IFRS 9") – replaces IAS 39, *Financial Instruments: Recognition and measurement* ("IAS 39"). IFRS 9 simplifies the classification and measurement requirements for financial instruments, which replaces the multiple classification and measurement models in IAS 39. Effective for annual periods beginning on or after January 1, 2015.

(Unaudited – Expressed in millions of Canadian dollars, except for per share information)

3. CHANGES IN ACCOUNTING POLICIES (Continued)

Recent accounting pronouncements (Continued)
The IASB also issued the following new and revised standards addressing the accounting for consolidation, involvements in joint arrangements and disclosure of involvements with other entities:

- *IFRS 10, Consolidated Financial Statements ("IFRS 10")* – replaces the consolidation guidance in IAS 27 (2008), *Consolidated and Separate Financial Statements*, and SIC-12, *Consolidated Special Purpose Entities*, by introducing a single consolidation model for all entities based on control, irrespective of the nature of the investee.

- *IFRS 11, Joint Arrangements ("IFRS 11")* – replaces IAS 31, *Interests in Joint Ventures*. The option to apply the proportional consolidation method when accounting for jointly controlled entities is removed.

- *IFRS 12, Disclosure of Interests in Other Entities ("IFRS 12")* – requires enhanced disclosures about the entity's interests in subsidiaries, joint arrangements and associates, and unconsolidated structured entities.

- *IAS 27 (2011), Separate Financial Statements* – the consolidation requirements previously forming part of IAS 27 (2008) have been revised and are now contained in IFRS 10.

- *IAS 28 (2011), Investments in Associates and Joint Ventures* – amended to conform to changes based on the issuance of IFRS 10, IFRS 11, and IFRS 12.

These five standards must be adopted concurrently and are effective for annual periods beginning on or after January 1, 2013.

5. IMPAIRMENT OF LONG-LIVED ASSETS AND GOODWILL

In March 2012, the Government of Ontario directed the Ontario Lottery and Gaming Corporation ("OLG") to end the "Slots at Racetracks" program on March 31, 2013, for all racetracks in Ontario in an effort to modernize that province's gaming model. As part of that plan, on March 29, 2012, OLG provided notice that the site holder agreements with the Company's Georgian Downs and Flamboro Downs racetracks will terminate on March 31, 2013. As a result of the early termination of Georgian Downs' site holder agreement, which was previously scheduled to expire in November 2021, the Company has recorded impairments of goodwill, intangible assets, and property, plant and equipment of \$3.2, \$8.2, and \$16.6, respectively. The Company also recorded impairments of intangible assets and property, plant and equipment of \$24.2 and \$5.2, respectively, in connection with Flamboro Downs' site holder agreement, which was previously scheduled to expire in April 2016.

The recoverable amounts for Georgian Downs' and Flamboro Downs' long-lived assets and goodwill were determined based on the value in use method, which estimates the net present value of the future cash flows expected to be generated, using a pre-tax discount rate based on the Company's weighted-average cost of capital. The estimates of future cash flows require a number of key assumptions about future business performance. These assumptions and estimates are primarily based on the relevant business' historical experience, economic trends, and consider past and ongoing communications with relevant stakeholders of the Company. These key assumptions include the future revenue levels, EBITDA[(1)], and the expected useful life of the cash generating unit. The assumptions are subject to a number of factors and it is possible that actual results could vary materially from management's estimates.

The Company is in continuing discussions with OLG regarding the risks to its existing operations and the potential future opportunities that may arise from the continued modernization of gaming in Ontario. Additional changes in OLG's operating model, such as the expansion of its business lines, could increase competition and negatively impact the Company's two racetracks in Ontario. It is not certain at this time the full extent of the impact that the continued modernization of gaming in Ontario may have on the Company. As the carrying value of Georgian Downs' and Flamboro Downs' assets are equal to their estimated recoverable amounts, a subsequent change in any key assumption utilized in the estimate of future cash flows may result in a further impairment loss or a reversal of an impairment loss. As at March 31, 2012, the carrying values of the intangible assets and property, plant and equipment associated with Georgian Downs were \$16.8 and \$47.6, respectively. As at March 31, 2012, the carrying values of the intangible assets and property, plant and equipment associated with Flamboro Downs were \$15.7 and \$8.4, respectively.

In connection with the impairment recorded for Georgian Downs and Flamboro Downs, the Company revised the estimated remaining useful lives of its intangible assets and property, plant and equipment. The net effect of this change in estimate and the impairment is a \$0.7 increase in the annual non-cash amortization expense related to these assets on a prospective basis.

[(1)] EBITDA as defined by the Company means **E**arnings **B**efore **I**nterest and financing costs (net of interest income), Income **T**axes, **D**epreciation and **A**mortization, stock-based compensation, impairments of long-lived assets and goodwill, and foreign exchange gain and other. EBITDA can be computed as revenues less human resources and property, marketing and administration expenses.

Term Loan B	$ 64.6 [1]	$ 76.3 [1]	US LIBOR+1.50%	6.7%	February 13, 2014
Subordinated Notes	$ 102.0	$ 120.7	7.25%	6.6%	February 15, 2015
Subordinated Notes	$ 68.0	$ 80.4	7.25%	7.1%	February 15, 2015

[1] The Term Loan B cross-currency interest rate swap's notional principal reduces by 0.25% of the original principal of $170.0 USD quarterly to match the scheduled principal reductions on the Term Loan B.

As at March 31, 2012, the Company's swap associated with the Term Loan B was in a $42.3 liability position (December 31, 2011 - $41.4 liability) and the swap associated with the Subordinated Notes was in a $26.7 liability position (December 31, 2011 - $24.9 liability). The swaps are recorded in "derivative liabilities" on the condensed consolidated statements of financial position.

The Company has evaluated these cross-currency interest rate and principal swaps and assessed them as effective hedges of the cash flows associated with the Term Loan B and the Subordinated Notes. The Company has applied hedge accounting to these swaps as it believes hedge accounting best represents the economic substance of the underlying transactions. Accordingly, the effective portion of the change in fair values of the swaps, has been recorded in "other comprehensive income", net of income taxes, and the ineffective portion has been recorded in "foreign exchange gain and other" expense.

Gains and losses on cash flow hedges are recorded when the hedged item affects net earnings. During the three months ended March 31, 2012, the Company transferred losses on derivatives designated as cash flow hedges from "other comprehensive income" to "foreign exchange gain and other" of $6.7 (2011 - $8.2), and related income taxes of $1.7 (2011 - $2.2). The Company also recorded a gain of $0.6 in "foreign exchange gain and other" related to its cross-currency interest rate and principal swaps during the period ended March 31, 2012 (2011 - $nil).

The fair values of the Company's cross-currency interest rate and principal swaps as at March 31, 2012 and December 31, 2011 were determined based on a credit risk adjusted discounted cash flow model. This model makes assumptions regarding the U.S. dollar exchange rate and discount rates, which are based on the prevailing U.S. dollar exchange rates and prevailing interest rates in Canada and the U.S. at the respective period ends. The credit risk associated with these cross-currency interest rate and principal swap agreements is mitigated since the counterparties to these swaps are Canadian chartered banks with minimum "A" credit ratings.
